

GEAR UP for a HYBRID EVERYTHING WORLD with SHI

*All times in Eastern

**FALL EXECUTIVE
FORUM**
November 3, 10 and 17

Wednesday, November 3, 2021

Building business resiliency and agility with hybrid infrastructure.

12:00 p.m. – 12:30 p.m. EDT

The Evolution of Multi-Cloud Strategy with Dell Technologies

Discover the trends and challenges impacting our digital transformation journey and how successful organizations are overcoming them.

Presenter: **Dan Mroz**, Global Data-Centric Workloads Business Development & Cloud Strategist, Dell Technologies

12:35 p.m. – 1:10 p.m. EDT

Building a More Consistent IT Infrastructure & Operations Capability

Learn how to unlock the full power of hybrid/multi-cloud. This session focuses on consistency in architecting IT infrastructure and operations, and how seamless application deployment across public and private clouds drives business agility.

Presenters: **Michele Hope**, Lead Research Analyst – Hybrid Cloud, Stratascale
Clinton Davenport, Corp Solutions Engineer, SHI

1:15 p.m. – 1:50 p.m. EDT

Rethinking Network Design for the Modern Age

Can your network support next-generation applications and securely leverage edge, IoT and advanced analytics to support your growing organization? This session focuses on assessing your network architecture's health and scalability.

Presenters: **Aaron Pilcher**, Corporate Network Director, SHI
LinWood Walker, Sr. Network Architect, Stratascale

1:50 p.m. – 2:00 p.m. EDT

Break

2:00 p.m. – 2:35 p.m. EDT

Improve Employee & Customer Experience with Edge Computing

The promise of edge computing delivers better employee and customer experience by placing computing infrastructure closer to users. The session will discuss key business benefits of edge computing, components of edge architecture, and use cases across industries, and outline typical next steps.

Presenters: **David Olszewski**, Senior Technical Advisor – Hybrid Cloud, Stratascale
Robert Illing, Manager, Technical Advisory, Stratascale

2:40 p.m. – 3:15 p.m. EDT

Putting Provisioning on Autopilot: Fireside Chat with AT&T

Don't miss our talk with Dave Gruver, Assistant Vice President at AT&T, as he walks us through his organization's adoption of next-generation provisioning. Learn how the company that wrote the book on telecommunications implemented tools and processes that streamlined the deployment of end-user devices, empowered employees, reined in costs, and improved productivity as well as employee satisfaction.

Panelist: **Dave Gruver**, Assistant Vice President, AT&T
Host: **Carmi Levy**, Content Marketing Program Director, SHI

Wednesday, November 10, 2021

Supporting your hybrid workers with effective end user computing solutions.

12:00 p.m. – 12:30 p.m. EST

Supporting Future Growth in a Transforming Workforce with Intel

The future of work is evolving quickly. Join us in a conversation about Intel's perspective on some of the future of work trends and how companies can use technology to build a more productive, resilient and empowered work force. We'll discuss current trends as companies around the world are looking to redefine how work gets done.

Presenter: **Caitlin Anderson**, Vice President, Sales and Marketing Group; General Manager, Commercial Client Sales, Intel

12:35 p.m. – 1:10 p.m. EST

How Effective ACR Can Help IT & HR Join Forces to Support Hybrid Workers

When introducing new technologies, organizations must update their strategies to ensure employees are equipped to manage change. This session addresses best practices around supporting technology change to maximize productivity.

Presenter: **Rob Eyerluss**, Senior Director - Corporate Training Group, SHI

Wednesday, November 10, 2021 - Continued
Supporting your hybrid workers with effective end user computing solutions.

1:50 p.m. – 2:00 p.m. EST

Break

1:15 p.m. – 1:50 p.m. EST

Empowering the Next-Generation Hybrid Workforce

As the pandemic drags on, organizations increasingly seek long-term solutions to revolutionize end user computing. This session focuses on new technologies and services that optimize the computing experience for remote workers.

Presenter: Kevin English, *Director of Mobility Hardware & Advanced Solutions, SHI*

2:00 p.m. – 2:35 p.m. EST

Getting Ready for Collaboration 2.0

Collaboration has transformed the pandemic workspace, but it's time to get strategic. This session focuses on creating a collaborative workspace vision that maximizes productivity, employee experience and organizational effectiveness.

Presenter: Mike McCracken, *Sr. Director - End User Solutions, SHI*

2:40 p.m. – 3:10 p.m. EST

Transformation in Action: Fireside Chat with Palo Alto Networks

Join us as we talk with Steve Januario, VP Digital Experience at Palo Alto Networks, about their journey to a hybrid working model and beyond. Learn how a world-class technology company prioritized projects to deliver quick wins, empowered business units and employees to innovate and went from strength-to-strength in challenging conditions.

Panelist: Steve Januario, *VP Digital Experience, Palo Alto Networks*

Host: Victoria Barber, *Analyst Relations & Insights Program Director, SHI*

Wednesday, November 17, 2021
Take a hybrid approach to securing your network at the core and the edge.

12:00 p.m. – 12:30 p.m. EST

Security That Adapts To Your Needs

Most of today's cyberattacks feature advanced tactics such as lateral movement and island hopping that target legitimate tools to inflict damage. It is critical to assess your risk and determine the best course of action to succeed in your cybersecurity program. Learn how you can adapt your posture to your security needs with VMware Carbon Black.

Presenter: Sanara Marsh, *Technical Marketing Manager, Network and Security, VMware*

12:35 p.m. – 1:10 p.m. EST

Securing Your Hybrid Workforce, Pragmatically

The hybrid workforce challenges IT to secure employees, apps and data without compromising productivity. This session will cover best practices around meeting today's hybrid workforce security needs and planning for whatever comes next.

Presenters: Collin Smith, *Corp Pre-sales Solutions Engineer - Security, SHI*

Jacob Welge, *Corp Pre-sales Solutions Engineer - Security, SHI*

1:15 p.m. – 1:50 p.m. EST

Securing Your Modern Hybrid Computing Enterprise

The increasingly turbulent threat landscape places today's hybrid workforces at particular risk. This session will cover adjustments to security program & policy, architecture and operations strategy to maximize organizational resiliency.

Presenter: Philip Armbrust, *Corp Security Director, SHI*

1:50 p.m. – 2:00 p.m. EST

Break

2:00 p.m. – 2:35 p.m. EST

Zero Trust: Ensuring End-to-End Protection in Today's Hybrid Landscape

Hybrid workforces require secure access from anywhere, across any network. This session explains how to build a comprehensive Zero Trust strategy, and how to integrate and bring it to life within your enterprise environment.

Presenters: Rob Forbes, *Director, Identity Services, Stratascale*

Derek Gabbard, *Vice President - Cybersecurity, Stratascale*

2:40 p.m. – 3:15 p.m. EST

Leveraging Integrated Risk Management to Drive Security Effectiveness

To mitigate risks in the ever-evolving threat landscape, businesses must create a risk-aware culture throughout the entire organization. Policies, controls, and procedures must be aligned, and tailored to support business needs and success metrics. This session will highlight emerging trends in Integrated Risk Management (IRM) and discuss best practices SHI and Stratascale have developed to help capitalize on them.

Presenters: Ryan Benson, *Director - Security Operations Advisory Services, Stratascale*

Dennis Allen, *Sr. Security Consultant - Programs, Stratascale*
