

FileMaker 14 Platform

Create custom solutions for iPad, iPhone, Windows, Mac, and the web

FileMaker Pro 14

What is it: FileMaker Pro 14 is powerful, easy-to-use software used to create custom solutions for any business that run on iPad, iPhone, Windows, Mac, and the web.

Who uses it: Individuals, businesses, nonprofit organizations, educational institutions, and departmental teams.

What is it used for: To create, manage, and share information with your team.

- Create custom solutions for iPad, iPhone, Windows, Mac, and the web.
- Run your solutions on Windows and Mac computers.
- Provide access for up to 5 other FileMaker Pro or FileMaker Go users.

Build your own solution or use one of the many built-in Starter Solutions to manage contacts, inventory, projects, and more.

FileMaker Pro 14 Advanced

What is it: FileMaker Pro 14 Advanced includes all the features of FileMaker Pro 14 plus a suite of advanced development and customization tools.

Who uses it: People who want more tools to help them design and maintain customized solutions for themselves or their team.

What it is used for: To build more powerful and customized solutions faster with ease.

- **Design and develop solutions** more quickly with Custom Menus, Custom Functions, and more.
- **Monitor more efficiently** using the interactive Script Debugger and powerful Data Viewer.
- **Modify and maintain solutions** with ease using the advanced Database Design Report and Multiple Table Import.

FileMaker Go 14

What is it: FileMaker Go 14 is a free app that runs your FileMaker solutions on iPad and iPhone so you can connect to your data anywhere.

Who uses it: Anyone who wants to easily share information with their team and to get more done while on the go.

What is it used for: To accomplish a variety of tasks such as checking inventory in the warehouse, creating invoices during client visits, performing inspections on-site, and more.

FileMaker Server 14

What is it: FileMaker Server 14 is fast, reliable server software.

What does it do: To securely share information with groups of FileMaker Pro and FileMaker Go users and to extend your solutions to the web.

When should you use it: When you want secure, reliable sharing for groups of FileMaker users – large and small. FileMaker Server does not restrict the number of networked FileMaker clients*.

- **Easy installation and 24/7 availability** – Basic installations take just 20 minutes or less. Get reliable, anytime access to your data.
- **Industry-standard security** – Authenticate via Active Directory/Open Directory, use SSL encryption for secure data transfer, and secure data hosted on FileMaker Server using AES 256-bit encryption.
- **Web technology** – Use FileMaker WebDirect to run interactive solutions in a web browser. Or use Custom Web Publishing to create custom, data-driven websites with PHP or XML.
- **ODCB/JDBC Support** – Share data with other applications via server-based ODBC/JDBC support.

* Technical limits are imposed only by your hardware, solution design, and operating system. Performance may vary based on solution architecture and complexity.

FileMaker Pro

Minimum Requirements

Windows†

Windows 8.1 Standard
Windows 8.1 Pro
Windows 8 Standard
Windows 8 Pro
Windows 7 (SP1)

CPU: 1 GHz or faster x86 or x64 processor
RAM: 1 GB, 2GB or more recommended
DVD drive for boxed product

Mac†

OS X Yosemite 10.10
OS X Mavericks 10.9

RAM: 2 GB, 4 GB or more recommended
DVD drive for boxed product

For detailed technical specifications, visit:
www.filemaker.com/protechspecs

Top New Features in FileMaker Go 14 for iPad and iPhone

Get new features to make it even easier to control how your solutions look and run on iPad and iPhone.

- **New! User Interface** – Get an iOS 8-style look for a consistent user experience. Plus, make your solutions full screen by hiding the user interface.
- **Set screen orientation** – Use a script to lock the orientation of your layout in to build layouts specifically for portrait or landscape views.
- **Enhanced signature capture** – Display the signature capture screen in portrait view as well as landscape.
- **Video and audio playback control** – Play videos in a container field as well as in full screen.
- **Enable touch keyboards** – Add a script to control whether or not the keyboard appears in your layout.
- **Rich text editing** – Choose the size, color, and font of your text – includes bold, underline, and italics options.

Top New Features in FileMaker Server 14

Get new features to use FileMaker solutions in a mobile browser and to stay connected to your data.

- **FileMaker Web Direct mobile browser support** – Use your mobile tablet to get the power of a FileMaker desktop solution delivered in a mobile web browser.
- **FileMaker WebDirect redesigned toolbar** – Get the features and functionality you use the most right at your fingertips. The FileMaker WebDirect toolbar is tuned for a mobile device but is useful on any computer.
- **Reconnect to server** – If the network connection or the server goes down FileMaker Pro automatically reconnects to FileMaker Server when it's available again.
- **Security enhancements** – Set password strength and set up a password hint in the FileMaker Server Admin Console.
- **Standby server** – If your primary server ever goes down, experienced server administrators can type in a set of commands via the Command Line Interface to switch over to the standby server.
